

Olá! My name is Ana, I'm from Portugal, specifically Chaves And I am currently an Economics student at University of Minho. This year I had my first abroad experience in Erasmus and it's been interesting to say the least. From the little I had the opportunity to see, the city is gorgeous with its ancient architecture but the best part is all the cats. FEBT Split has surely been different from what I am used too, but in a good way. I am looking forward to this being over so I can visit other nearby cities and actually meet some locals.
