A horizontal number line with three tick marks. The first tick mark is labeled "300" below it. The second tick mark is labeled "300" below it. The third tick mark is labeled "300" below it.

The schematic shows a logic circuit with three inputs labeled 620, 640, and 660. The output is labeled Q40. The circuit consists of a NOT gate followed by an AND gate. The NOT gate has input 620 and output A. The AND gate has inputs A and 640, with output B. The AND gate also has inputs A and 660, with output C. The outputs B and C are connected in series to produce the final output Q40.

A horizontal number line with three tick marks. The first tick mark is labeled "300" below it. The second tick mark is labeled "300" below it. The third tick mark is labeled "300" below it.
